GAAPP assists in Founding of Patient Organizations

Ten Points to make a Patient Organization successful

- 1** Identify an initial group of patients with a long-term interest to understand their disease, aiming for self-management and willing to share their experience
- 2** Prepare a Constitution/Statutes including
 - a. Name and headquarter address
 - b. Status of organization
 - c. Area of activity
 - d. Association's purpose
 - e. Methods of achieving the association's purpose
 - f. Define kinds of membership, rights and obligations of members and termination
 - g. Define association bodies and their tasks and its dissolution
- 3** Prepare a framework for sustainable corporate partnership with supporters
- 4** Prepare an initial working plan for at least 1 year
- 5** Calculate hours of investment for board members
- 6** Elect board members
- 7** Prepare communication tools (website, brochure, display for stands etc)
- 8** Communicate about the organization objectives and plans/projects to relevant stakeholders (Ministry of Health, other policy-makers, health-care professional organizations, peer NCD-NGOs)
- 9** Expand Membership
- 10** Report and communicate work of the association bodies to members and partners and motivate individuals serving in the board

So far: GAAPP assisted in building the Chinese Allergy and Asthma Patient Platform CAAPP and the Asthma and Allergies Association AAA Ethiopia
